And to ensure that Socrates responds by defending justice for its intrinsic value, rather than merely appealing to the fact that unjust people are likely to be locked up or named and shamed and so on, Glaucon proposes a test, made famous by Oscar Wilde: The Ring of Gyges experiment. Glaucon asks us to imagine that we could wear a ring which renders us invisible.

Over a career that has spanned more than six decades, Woody Allen has explored the emotion of regret as a response to the existentialist dilemma of not being someone else. Tracing this recurrent theme from his stand-up comedy routines and apprentice work through classics like *Annie Hall*, *Manhattan*, *The Purple Rose of Cairo*, *Hannah and Her Sisters*, and *Bullets Over Broadway* as well as less esteemed accomplishments (*Another Woman*, *Sweet and Lowdown*, *Cassandra's Dream*), this volume argues that it is ultimately the shallowness of his protagonists' regret—their lack of deeply felt, sustained remorse—that defines Allen's pervasive view of human experience. Drawing on insights from philosophy, theology, psychology, and literature, the book discusses nearly every Woody Allen film, with extended analyses of the relationship films (including *Alice* and *Husbands and Wives*), the murder tetralogy (including *Match Point* and *Irrational Man*), the self-reflexive films (including *Stardust Memories* and *Deconstructing Harry*), and the movies about nostalgia (including *Radio Days* and *Midnight in Paris*). The book concludes by considering Allen's most affirmative resolution of regret (*Broadway Danny Rose*) and speculating about the relevance of this through-line for understanding Allen's personal life and prospects as an octogenarian auteur.

Interfaces are back, or perhaps they never left. The familiar Socratic conceit from the *Phaedrus*, of communication as the process of writing directly on the soul of the other, has returned to center stage in today's discussions of culture and media. Indeed Western thought has long construed media as a grand choice between two kinds of interfaces. Following the optimistic path, media seamlessly interface self and other in a transparent and immediate connection. But, following the pessimistic path, media are the obstacles to direct communion, disintegrating self and other into misunderstanding and contradiction. In other words, media interfaces are either clear or complicated, either beautiful or deceptive, either already known or endlessly interpretable. Recognizing the limits of either path, Galloway charts an alternative course by considering the interface as an autonomous zone of aesthetic activity, guided by its own logic and its own ends: the interface effect. Rather than praising user-friendly interfaces that work well, or castigating those that work poorly, this book considers the unworkable nature of all interfaces, from windows and doors to screens and keyboards. Considered allegorically, such thresholds do not so much tell the story of their own operations but beckon outward into the realm of social and political life, and in so doing ask a question to which the political interpretation of interfaces is the only coherent answer. Grounded in philosophy and cultural theory and driven by close readings of video games, software, television, painting, and other images, Galloway seeks to explain the logic of digital culture through an analysis of its most emblematic and ubiquitous manifestation – the interface.

It is time to reevaluate the merits of the inconspicuous life, to search out some antidote to continuous

exposure, and to reconsider the value of going unseen, undetected, or overlooked in this new world. Might invisibility be regarded not simply as refuge, but as a condition with its own meaning and power? The impulse to escape notice is not about complacent isolation or senseless conformity, but about maintaining identity, autonomy, and voice. In our networked and image-saturated lives, the notion of disappearing has never been more alluring. Today, we are relentlessly encouraged, even conditioned, to reveal, share, and promote ourselves. The pressure to be public comes not just from our peers, but from vast and pervasive technology companies that want to profit from patterns in our behavior. A lifelong student and observer of the natural world, Busch sets out to explore her own uneasiness with this arrangement, and what she senses is a widespread desire for a less scrutinized way of life—for invisibility. Writing in rich painterly detail about her own life, her family, and some of the world's most exotic and remote places, she savors the pleasures of being unseen. Discovering and dramatizing a wonderful range of ways of disappearing, from virtual reality goggles that trick the wearer into believing her body has disappeared to the way Virginia Woolf's Mrs. Dalloway finds a sense of affiliation with the world around her as she ages, Busch deliberates on subjects new and old with equal sensitivity and incisiveness. *How to Disappear* is a unique and exhilarating accomplishment, overturning the dangerous modern assumption that somehow fame and visibility equate to success and happiness. Busch presents a field guide to invisibility, reacquainting us with the merits of remaining inconspicuous, and finding genuine alternatives to a life of perpetual exposure. Accessing timeless truths in order to speak to our most urgent contemporary problems, she inspires us to develop a deeper appreciation for personal privacy in a vast and intrusive world.

The *Dispossessed* has been described by political thinker Andre Gorz as 'The most striking description I know of the seductions—and snares—of self-managed communist or, in other words, anarchist society.' To date, however, the radical social, cultural, and political ramifications of Le Guin's multiple award-winning novel remain woefully under explored. Editors Laurence Davis and Peter Stillman right this state of affairs in the first ever collection of original essays devoted to Le Guin's novel. Among the topics covered in this wide-ranging, international and interdisciplinary collection are the anarchist, ecological, post-consumerist, temporal, revolutionary, and open-ended utopian politics of *The Dispossessed*. The book concludes with an essay by Le Guin written specially for this volume, in which she reassesses the novel in light of the development of her own thinking over the past 30 years.

"Doesn't one always think of the past, in a garden with men and women lying under the trees? Aren't they one's past, all that remains of it, those men and women, those ghosts lying under the trees... one's happiness, one's reality?" A family of four is walking around Kew Gardens in London, lost in their thoughts. The husband thinks of the girl who turned down his marriage proposal in this very garden many years ago. When asking his wife if it upsets her that he's thinking about this other woman, she reasons that one's past is like ghosts lying under the trees. Only Virginia Woolf can write a short story about completely ordinary things and people and make you long for more. With exquisite prose, she invites you along as she examines the beauty of normal summer's day. Adeline Virginia Woolf (1882-1941) was an English writer who, despite growing up in a progressive household, was not allowed an education. When she and her sister moved in with their brothers in a rough London neighborhood, they joined the infamous The Bloomsbury Group, which debated philosophy, art and politics. Woolf's most famous novels include 'Mrs Dalloway' (1925) and 'To the Lighthouse' (1927).
