The brain matters in business. The problem is that our brains have many biases, heuristics and predilections that can distort behaviour and decision making. The good news is that we know more about how these work than ever before.

A Brain for Business - A Brain for Life: How insights from ...

This episode will help everyone understand just how much confirmation bias is impacting your life and business. I will give examples and tips throughout the episode. In its most basic form, confirmation bias comes down to the brain's desire to be correct and the subconscious filter deciding what gets through and stored...and what gets ignored. Because the subconscious is working from established, proven rules to make these choices, it is looking for stuff that fits those existing rules.

102. Confirmation Bias: How Your ... - The Brainy Business

The first part of the brain to evolve some 500 million years ago was the brain stem. It is also known as the reptilian brain or lower brain. Certain 'hardwired' body functions e.g., breathing and blood pressure, as well as some basic human instincts like danger are controlled by the lower brain.
